

LEE AREA TRAFFIC STUDY

Alternatives Considered for Recommendation

Alternative considered for recommendation	Alternative removed from further consideration
New Road	Existing Road
Existing Road	New Road
New Interchange	Upgrade
Possible Improvements Needed	New Interchange

Alternative 1: Install traffic lights at Park/Main and Center/Main; possibly eliminate or configure parking on Main street; intersection modifications (Transportation Systems Management)

Alternative 3A: Combination of use of the existing road and a new road for a distance of 1.48 miles from Route 102 at Old Pleasant Street to Park Street to Laurel Street on the west side of the river.

Alternative 5: Route 7 MassPike Interchange where the MassPike crosses Route 7 and use of existing road.

Alternative 10: Combination of new interchange with an upgrade/widening of West Road north to Route 7 for a distance of 1.23 miles.
