

# WE WANT YOUR THOUGHTS!

The Hoosic River Revival Coalition which has the support of the Mayor and City Council, as well as a wide variety of civic and educational organizations, like the Northern Berkshire Community Coalition, Develop North Adams, and MCLA, is a local citizens group whose goal is to protect the city from from flooding with a 21st century flood control system. Many cities like ours are working with technical consultants and the Army Corps of Engineers to modify their old flood chutes so that people can enjoy looking at the river, so residents and visitors can walk or bike along its edge, and so they can use the river for recreation, like fishing and boating.

*Like Providence, Rhode Island, we hope to have a river that is the gem in our downtown.*

## WHAT ARE YOUR IDEAS ABOUT THE RIVER?

- What would you like to see?
- How would you like to use the river and its banks?
- Where would you make changes to the flood chutes?

Please look over our poster, especially the **New Life for North Adams** section, write your ideas on the back of this card, and deposit it in the box.

We promise to read every one. **THANKS SO MUCH!**

Judy Grinnell, Chair
